### PROFESSIONAL PROFILE

Senior Frontend Developer and Full Stack Engineer with over 5 years of experience in building high-performance web applications. Expert in React.js and Next.js, specialized in designing intuitive user experiences in Figma and transforming them into pixel-perfect, responsive interfaces. Proven track record in technical leadership, mentoring junior developers, and building advanced design systems using Shadcn UI. Experienced in full-stack development with extensive experience in Java, Spring Boot, NodeJS, NestJS JWT authentication, and designing RESTful APIs and controllers. Dedicated to optimizing frontend architecture, bridging the gap between design aesthetics and robust technical implementation, and building scalable backend systems with clean architecture and best practices.

### TECHNICAL SKILLS

- Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, React Query, HTML5, CSS3, Framer Motion, Performance Optimization.
- UI/UX: Shadcn UI, Figma (Design Systems), Tailwind CSS, Material UI, Ant Design, Responsive Web Design, User-Centric Design.
- Backend: Node.js, Express.js, NestJS, Java, Spring Boot, Spring Security, Spring Data JPA, MongoDB, JWT Authentication, Stripe API, PostgreSQL, Redis, Flyway, JWT Authentication, REST API Design, Maven, Docker.
- Tools: Git/GitHub, Jest, Unit Testing, Agile/Scrum, Jira, Refactoring, Clean Code (SOLID).

### PROFESSIONAL EXPERIENCE

#### Senior Frontend Developer | World Of Systems and Software (Remote)

Dec 2024 – Present

- Technical Leadership: Mentoring and onboarding junior frontend developers, providing guidance through code reviews to ensure clean code principles, improving team delivery speed by 20%.
- UI/UX Strategy: Leading the design-to-code workflow, transforming complex Figma prototypes into high-performance components using Shadcn UI.
- Performance: Optimized state management and frontend architecture, reducing initial page load times by 30%.

#### Frontend Developer | BlackStone eIT (Project Based)

June 2024 – Nov 2024

- Developed the "GovAcademy Workspace Dashboard" using Next.js and Redux, focusing on complex data visualization and design consistency with Material UI.
- Collaborated with the design team to ensure all UI components meet accessibility standards.

### **Frontend Developer | AsgaTech**

Aug 2022 – Jan 2024

- Optimized data fetching with React Query and Redux, significantly enhancing application performance and reducing API latency.
- Developed a reusable component analysis tool, cutting development time for new features.

### **Frontend Developer | Remote & Independent Projects**

Feb 2021 – May 2022

- Cordital: Led frontend development for a marketing platform, ensuring cross-browser compatibility.
- Qomra: Engineered a performance-optimized, SEO-friendly website.
- Built and maintained multiple e-commerce and corporate platforms using React.js and WordPress.

### **KEY PROJECTS**

- Handesly: MERN Stack platform for architectural engineers. Designed UI/UX in Figma and developed the full frontend from scratch.
- ZeroOne Academy: Robotics academy website using Next.js and Framer Motion for advanced UI animations.
- Figure Interiors: Architectural company website focusing on SEO and high-end visual presentation.

### **EDUCATION**

- Bachelor's Degree in Engineering | El-Shrouk Academy (2012 – 2018) Grade: Good | Graduation Project: Very Good.
- Information Technology Institute (ITI): Intensive Code Camp, MERN Stack (2024).

### **COURSES**

- Node.js, Express, MongoDB - The Complete Bootcamp (Udemy 2024).
- React - The Complete Guide (Redux, Hooks) (Udemy 2021).
- The Complete Web Development Bootcamp (Udemy 2020).

### **LANGUAGES**

- Arabic: Native | English: Fluent
